FOR IMMEDIATE RELEASE

**INSPIRED LEGACIES ANNOUNCES ITS ANNUAL LIST
OF TRANSFORMATIONAL NONPROFITS, INVITES
EASE AND VIGOR OF YEAR-END GIVING**

(HOUSTON, TX)...*“Transformational times call for transformational leaders and organizations and many we wish for are already doing great work. They simply need more visibility, supporters and partners!”* says Inspired Legacies’ founder and philanthropic advisor, Tracy Gary, who announced today its list of 50 transformational nonprofits through the Tipping Point Fund (TPF). TPF was established as a resource for selected organizations that demonstrate transformational philanthropy, a strategy of partnering with organizations and leaders who are consciously and collectively co-creating our future. As incubators of innovation, transformative organizations and their leaders seek fresh approaches and ever more appropriate ways to convey inspired ideas and cultural change.

The Tipping Point Fund highlights organizations from the following critical better world building areas:

- Consciousness, Leadership and Community Building
- Diversity, Race and Gender Justice
- Economic Reform
- Family Advocacy
- Global Community Development
- New Generational Leadership and Youth Development
- New Media and the Arts
- Sustainability and Environmental Justice
- Transformative Philanthropy and Donor Education
- Transforming Education and Policy

We welcome these new organizations and applaud their successful efforts and hard work for sustainability and transformative leadership. A complete list of the latest inductees is attached, and additional information on all TPF members as well as how you can support each organization can be found at www.inspiredlegacies.org or by contacting the Inspired Legacies office at 713.527.7671.
